

REMARKS/ARGUMENTS

The application has been carefully reviewed in light of the October 23, 2003 Office Action. In that Office Action, it was indicated that Applicant's previous response was persuasive in overcoming the §102 and §103 rejections. However, the Examiner once again objected to the disclosure under 37 CFR §1.163 and 35 U.S.C. §112. In particular, with reference to paragraphs H and P, the Examiner required information regarding the cultural conditions and the location in which the plant was grown, as well as information regarding the flower.

In Response, Applicant has provided the foregoing additions to the Specification of the present application which addresses these requirements. Applicant believes that it has met the requirements of the Examiner and that the description of the plant is as complete as is reasonably possible. Accordingly, Applicant believes that the present application, as amended, is now in condition for allowance, notice of which is hereby respectfully requested. Should the Examiner have additional requests, she is invited to contact the undersigned directly.

Respectfully submitted,

KELLY BAUERSFELD LOWRY & KELLEY, LLP
